

Example 1:

FCFS

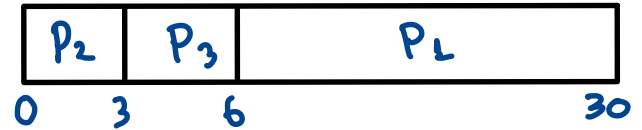

Process	burst time
P_1	24
P_2	3
P_3	3

Process	Wait time
P_1	0
P_2	24
P_3	27

$$E[W] = \frac{(0+24+27)}{3} = 17$$

Example 2:

FCFS

Process	burst time
P_2	3
P_3	3
P_1	24

Process	Wait time
P_2	0
P_3	3
P_1	6

$$E[W] = \frac{(0+3+6)}{3} = 3$$
